

DUAL FLOW!

DELPHI - EFI PERFORMANCE THROTTLE BODY

This twin 50mm throttle body is a direct replacement part for your 2001 Soft Tail®, Soft Tail Deuce® and all 2002 and up EFI bikes equipped with a Delphi® Throttle Body.

It uses the electronic components from your stock Harley Delphi unit and offers maximum air flow with divided runners for increased torque and tunability.

Available for stock and long cylinders with standard and larger port diameters to fit 1.800 intake ports. Dual Flow throttle body includes a backing plate that fits most aftermarket air cleaners.

Features:

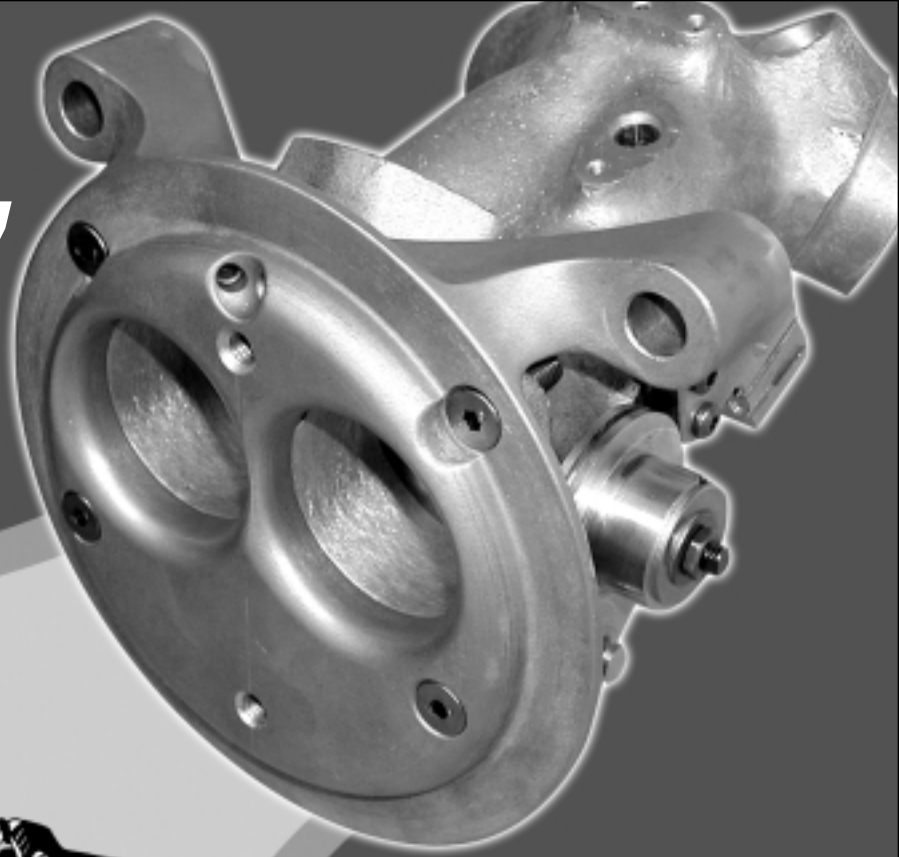

- Tuned, divided runners.
- Increased flow & port velocity.
- Less turbulence.
- Uses stock injectors & electronic components, throttle cables & cruise control.
